Learn latest news about STDs

You can watch a list of videos from the Centers for Disease Control and Prevention (CDC) to know more about STDs. You can also see latest CDC STD tweets and research news on STDs on the page.

Several ways to navigate to the page:

- Open the App [url](#)
- Click **STD Information App** on the navigation bar
- Click **Info on STDs** on the navigation bar

Learn basic information about STDs

Understanding your sexual health and how to prevent sexually

transmitted diseases are important to keep you healthy. Find resources for condom effectiveness, PrEP, pregnancy, testing locations, and guidance on treatment and prevention for all diseases.

Navigate to the page:

- Click **CDC information** on the navigation bar

Get STD testing recommendation

Get STD testing recommendation by answering five questions.

Navigate to the page:

- Click **Test For STDs** on the navigation bar

Use the tool:

1. Answer all five questions, click on **SUGGEST** button
2. It shows a list of recommended tests. You can click each test to learn more about the diseases or click on **Book Appoitment** button to book a testing appoitment

Book STD testing appoitment

Enter a zip code and select a specialty to find practitioners nearby.
